

Dokumentasi API: Aplikasi Magang BPS (v2.0)

Base URL: `http://localhost:3000`

Last Updated: Januari 2025

Daftar Isi

- 1. [Autentikasi & Manajemen User](#)
 - 2. [Aktivitas Inti Magang](#)
 - 3. [Modul Penugasan](#)
 - 4. [Modul Laporan Akhir](#)
 - 5. [Modul Sertifikat](#)
 - 6. [Catatan & Standar Umum](#)
-

Bagian 1: Autentikasi & Manajemen User

1.1 Endpoint Publik

POST `/auth/register`

Deskripsi: Mendaftarkan user baru dengan peran default "Mahasiswa"

Request Body:

```
{
  "name": "John Doe",
  "email": "john@example.com",
  "password": "password123"
}
```

Response Success (201):

```
{
  "message": "User berhasil didaftarkan",
  "user": {
    "id": 1,
    "name": "John Doe",
    "email": "john@example.com",
    "role": {
      "name": "Mahasiswa"
    }
  }
}
```

Response Error (409):

```
{
  "message": "Email sudah terdaftar"
}
```

POST /auth/login

Deskripsi: Login untuk mendapatkan JWT access token

Request Body:

```
{
  "email": "john@example.com",
  "password": "password123"
}
```

Response Success (200):

```
{
  "access_token": "eyJhbGciOiJIUzI1NiIsInR5cCI6IkpXVCJ9...",
  "user": {
    "id": 1,
    "name": "John Doe",
    "email": "john@example.com",
    "role": {
      "name": "Mahasiswa"
    }
  }
}
```

Response Error (401):

```
{
  "message": "Email atau password salah"
}
```

1.2 Endpoint Pengguna

GET /auth/profile

Deskripsi: Mendapatkan profil lengkap user yang sedang login

Headers: `Authorization: Bearer {jwt_token}`

Response Success (200):

```
{
  "id": 1,
  "name": "John Doe",
  "email": "john@example.com",
  "namaLengkap": "John Doe",
  "nimNisn": "123456789",
  "asalInstitusi": "Universitas ABC",
  "jurusanProdi": "Teknik Informatika",
  "nomorTelepon": "081234567890",
  "alamat": "Jl. Contoh No. 123",
  "role": {
    "name": "Mahasiswa"
  }
}
```

PATCH /auth/profile

Deskripsi: Update profil dan upload berkas pendaftaran

Headers:

- `Authorization: Bearer {jwt_token}`
- `Content-Type: multipart/form-data`

Body (Form Data):

- `namaLengkap` (string)
- `nimNisn` (string)
- `asalInstitusi` (string)
- `jurusanProdi` (string)
- `nomorTelepon` (string)
- `alamat` (string)
- `cv` (file: PDF, max 2MB)
- `transkripNilai` (file: PDF, max 2MB)
- `suratPermohonan` (file: PDF, max 2MB)

Response Success (200):

```
{
  "message": "Profil berhasil diperbarui",
  "user": {
    "id": 1,
    "namaLengkap": "John Doe",
    "nimNisn": "123456789",
    "asalInstitusi": "Universitas ABC"
  }
}
```

1.3 Pendaftaran Magang

POST `/internship-applications`

Deskripsi: Submit pendaftaran magang dengan berkas

Headers:

- `Authorization: Bearer {jwt_token}`
- `Content-Type: multipart/form-data`

Body (Form Data):

- `cv` (file: PDF, max 2MB)
- `transcript` (file: PDF, max 2MB)
- `requestLetter` (file: PDF, max 2MB)

Response Success (201):

```
{
  "message": "Pendaftaran magang berhasil diajukan",
  "application": {
    "id": 1,
    "status": "pending",
    "cvPath": "/uploads/cv_file.pdf",
    "transcriptPath": "/uploads/transcript_file.pdf",
    "requestLetterPath": "/uploads/request_letter.pdf",
    "userId": 1
  }
}
```

1.4 Endpoint Admin

GET `/users`

Deskripsi: Mendapatkan daftar semua user (Admin only)

Headers: `Authorization: Bearer {jwt_token}`

Query Parameters:

- `page` (optional): Halaman (default: 1)
- `limit` (optional): Items per halaman (default: 10)

Response Success (200):

```
{
  "data": [
    {
      "id": 1,
      "name": "John Doe",

```

```
    "email": "john@example.com",
    "namaLengkap": "John Doe",
    "asalInstitusi": "Universitas ABC",
    "role": {
      "name": "Mahasiswa"
    }
  },
  "meta": {
    "totalItems": 50,
    "itemCount": 10,
    "itemsPerPage": 10,
    "currentPage": 1,
    "totalPages": 5
  }
}
```

POST /users

Deskripsi: Membuat user baru dengan role spesifik (Admin only)

Headers: `Authorization: Bearer {jwt_token}`

Request Body:

```
{
  "name": "Jane Staff",
  "email": "jane@bps.go.id",
  "password": "password123",
  "roleName": "admin"
}
```

Response Success (201):

```
{
  "message": "User berhasil dibuat",
  "user": {
    "id": 2,
    "name": "Jane Staff",
    "email": "jane@bps.go.id",
    "role": {
      "name": "admin"
    }
  }
}
```

GET /internship-applications

Deskripsi: Mendapatkan semua pendaftaran magang (Admin only)

Headers: `Authorization: Bearer {jwt_token}`

Query Parameters:

- `page` (optional): Halaman (default: 1)
- `limit` (optional): Items per halaman (default: 10)

Response Success (200):

```
{
  "data": [
    {
      "id": 1,
      "status": "pending",
      "cvPath": "/uploads/cv_file.pdf",
      "transcriptPath": "/uploads/transcript_file.pdf",
      "requestLetterPath": "/uploads/request_letter.pdf",
      "verifiedAt": null,
      "feedback": null,
      "applicant": {
        "name": "John Doe",
        "email": "john@example.com",
        "namaLengkap": "John Doe",
        "asalInstitusi": "Universitas ABC"
      }
    }
  ],
  "meta": {
    "totalItems": 25,
    "itemCount": 10,
    "itemsPerPage": 10,
    "currentPage": 1,
    "totalPages": 3
  }
}
```

PATCH `/internship-applications/:id/status`

Deskripsi: Update status pendaftaran magang (Admin only)

Headers: `Authorization: Bearer {jwt_token}`

Request Body:

```
{
  "status": "accepted",
  "feedback": "Dokumen lengkap dan memenuhi syarat"
}
```

Response Success (200):

```
{
  "message": "Status pendaftaran berhasil diperbarui",
  "application": {
    "id": 1,
    "status": "accepted",
    "feedback": "Dokumen lengkap dan memenuhi syarat",
    "verifiedAt": "2025-01-15T10:30:00Z",
    "verifiedBy": 2
  }
}
```

Bagian 2: Aktivitas Inti Magang

2.1 Presensi (Attendance)

POST `/attendances/clock-in`

Deskripsi: Melakukan presensi masuk dengan validasi lokasi

Headers: `Authorization: Bearer {jwt_token}`

Request Body:

```
{
  "latitude": -5.235,
  "longitude": 105.1572
}
```

Response Success (201):

```
{
  "message": "Presensi masuk berhasil",
  "attendance": {
    "id": 1,
    "clockIn": "2025-01-15T08:00:00Z",
    "clockOut": null,
    "latitude": -5.235,
    "longitude": 105.1572,
    "ipAddress": "192.168.1.100",
    "userId": 1
  }
}
```

Response Error (403):

```
{
  "message": "Anda harus berada dalam radius 50 meter dari kantor. Jarak Anda: 120 mete:"
}
```

PATCH /attendances/clock-out

Deskripsi: Melakukan presensi pulang

Headers: Authorization: Bearer {jwt_token}

Response Success (200):

```
{
  "message": "Presensi pulang berhasil",
  "attendance": {
    "id": 1,
    "clockIn": "2025-01-15T08:00:00Z",
    "clockOut": "2025-01-15T17:00:00Z",
    "latitude": -5.235,
    "longitude": 105.1572,
    "userId": 1
  }
}
```

Response Error (404):

```
{
  "message": "Tidak ditemukan data presensi masuk untuk hari ini. Silakan clock-in terlebih dahulu."
}
```

GET /attendances

Deskripsi: Mendapatkan riwayat presensi user yang login

Headers: Authorization: Bearer {jwt_token}

Response Success (200):

```
{
  "data": [
    {
      "id": 1,
      "clockIn": "2025-01-15T08:00:00Z",
      "clockOut": "2025-01-15T17:00:00Z",
      "latitude": -5.235,
      "longitude": 105.1572,
      "ipAddress": "192.168.1.100"
    }
  ]
}
```

GET /attendances/all

Deskripsi: Mendapatkan semua data presensi (Admin only)

Headers: `Authorization: Bearer {jwt_token}`

Query Parameters:

- `page` (optional): Halaman (default: 1)
- `limit` (optional): Items per halaman (default: 20)

Response Success (200):

```
{
  "data": [
    {
      "id": 1,
      "clockIn": "2025-01-15T08:00:00Z",
      "clockOut": "2025-01-15T17:00:00Z",
      "latitude": -5.235,
      "longitude": 105.1572,
      "user": {
        "id": 1,
        "name": "John Doe",
        "email": "john@example.com"
      }
    }
  ],
  "total": 150,
  "page": 1,
  "lastPage": 8
}
```

2.2 Logbook Harian

POST `/logbooks`

Deskripsi: Membuat entri logbook baru

Headers: `Authorization: Bearer {jwt_token}`

Request Body:

```
{
  "logDate": "2025-01-15",
  "content": "Hari ini saya mempelajari sistem database BPS dan membantu input data sur"
}
```

Response Success (201):

```
{
  "message": "Logbook berhasil dibuat",
  "logbook": {
```

```
    "id": 1,
    "logDate": "2025-01-15T00:00:00Z",
    "content": "Hari ini saya mempelajari sistem database BPS dan membantu input data s1",
    "status": "draft",
    "userId": 1
  }
}
```

GET /logbooks

Deskripsi: Mendapatkan semua logbook user yang login

Headers: `Authorization: Bearer {jwt_token}`

Response Success (200):

```
{
  "data": [
    {
      "id": 1,
      "logDate": "2025-01-15T00:00:00Z",
      "content": "Hari ini saya mempelajari sistem database BPS dan membantu input data",
      "status": "draft"
    }
  ]
}
```

GET /logbooks/all

Deskripsi: Mendapatkan semua logbook dengan paginasi (Admin only)

Headers: `Authorization: Bearer {jwt_token}`

Query Parameters:

- `page` (optional): Halaman (default: 1)
- `limit` (optional): Items per halaman (default: 20)

Response Success (200):

```
{
  "data": [
    {
      "id": 1,
      "logDate": "2025-01-15T00:00:00Z",
      "content": "Hari ini saya mempelajari sistem database BPS dan membantu input data",
      "status": "draft",
      "user": {
        "id": 1,
        "name": "John Doe",
        "email": "john@example.com"
      }
    }
  ]
}
```

```
    }
  }
],
"total": 200,
"page": 1,
"lastPage": 10
}
```

GET `/logbooks/:id`

Deskripsi: Mendapatkan detail logbook berdasarkan ID

Headers: `Authorization: Bearer {jwt_token}`

Response Success (200):

```
{
  "id": 1,
  "logDate": "2025-01-15T00:00:00Z",
  "content": "Hari ini saya mempelajari sistem database BPS dan membantu input data survei",
  "status": "draft",
  "userId": 1
}
```

PATCH `/logbooks/:id`

Deskripsi: Update logbook

Headers: `Authorization: Bearer {jwt_token}`

Request Body:

```
{
  "content": "Hari ini saya mempelajari sistem database BPS, membantu input data survei",
  "status": "submitted"
}
```

Response Success (200):

```
{
  "message": "Logbook berhasil diperbarui",
  "logbook": {
    "id": 1,
    "logDate": "2025-01-15T00:00:00Z",
    "content": "Hari ini saya mempelajari sistem database BPS, membantu input data survei",
    "status": "submitted",
    "userId": 1
  }
}
```

DELETE `/logbooks/:id`

Deskripsi: Menghapus logbook

Headers: `Authorization: Bearer {jwt_token}`

Response Success (200):

```
{
  "message": "Logbook berhasil dihapus"
}
```

Bagian 3: Modul Penugasan

3.1 Manajemen Tugas (Admin/Staff)

POST `/tasks`

Deskripsi: Membuat tugas baru dan langsung assign ke intern

Headers: `Authorization: Bearer {jwt_token}`

Request Body:

```
{
  "title": "Analisis Data Survei",
  "description": "Lakukan analisis terhadap data survei ekonomi Q4 2024",
  "deadline": "2025-01-30",
  "internIds": [1, 2, 3]
}
```

Response Success (201):

```
{
  "message": "Tugas berhasil dibuat dan ditugaskan",
  "task": {
    "id": 1,
    "title": "Analisis Data Survei",
    "description": "Lakukan analisis terhadap data survei ekonomi Q4 2024",
    "deadline": "2025-01-30T00:00:00Z",
    "createdBy": 2
  }
}
```

GET `/tasks`

Deskripsi: Mendapatkan semua tugas untuk user yang login

Headers: `Authorization: Bearer {jwt_token}`

Response Success (200):

```
{
  "data": [
    {
      "id": 1,
      "title": "Analisis Data Survei",
      "description": "Lakukan analisis terhadap data survei ekonomi Q4 2024",
      "deadline": "2025-01-30T00:00:00Z",
      "createdBy": 2,
      "creator": {
        "name": "Jane Staff"
      },
      "submission": {
        "id": 1,
        "status": "not_submitted",
        "filePath": null,
        "grade": null,
        "feedback": null
      }
    }
  ]
}
```

GET `/tasks/:id`

Deskripsi: Mendapatkan detail tugas berdasarkan ID

Headers: `Authorization: Bearer {jwt_token}`

Response Success (200):

```
{
  "id": 1,
  "title": "Analisis Data Survei",
  "description": "Lakukan analisis terhadap data survei ekonomi Q4 2024",
  "deadline": "2025-01-30T00:00:00Z",
  "createdBy": 2,
  "creator": {
    "name": "Jane Staff"
  },
  "assignments": [
    {
      "user": {
        "id": 1,
        "name": "John Doe"
      },
      "submission": {
        "id": 1,
```

```
    "status": "not_submitted",
    "filePath": null,
    "grade": null,
    "feedback": null
  }
}
]
```

PATCH /tasks/:id

Deskripsi: Update tugas (Admin/Staff only)

Headers: Authorization: Bearer {jwt_token}

Request Body:

```
{
  "title": "Analisis Data Survei (Updated)",
  "description": "Lakukan analisis terhadap data survei ekonomi Q4 2024 dengan metodologi",
  "deadline": "2025-02-15"
}
```

Response Success (200):

```
{
  "message": "Tugas berhasil diperbarui",
  "task": {
    "id": 1,
    "title": "Analisis Data Survei (Updated)",
    "description": "Lakukan analisis terhadap data survei ekonomi Q4 2024 dengan metodologi",
    "deadline": "2025-02-15T00:00:00Z",
    "createdBy": 2
  }
}
```

DELETE /tasks/:id

Deskripsi: Menghapus tugas (Admin/Staff only)

Headers: Authorization: Bearer {jwt_token}

Response Success (200):

```
{
  "message": "Tugas berhasil dihapus"
}
```

3.2 Penugasan Tugas

POST `/tasks/:id/assign`

Deskripsi: Menugaskan tugas kepada peserta magang (Admin/Staff only)

Headers: `Authorization: Bearer {jwt_token}`

Request Body:

```
{
  "internIds": [1, 2, 3]
}
```

Response Success (201):

```
{
  "message": "Tugas berhasil ditugaskan",
  "assignments": [
    {
      "taskId": 1,
      "userId": 1
    },
    {
      "taskId": 1,
      "userId": 2
    },
    {
      "taskId": 1,
      "userId": 3
    }
  ]
}
```

3.3 Submission Tugas

POST `/submissions`

Deskripsi: Mengirim submission tugas

Headers:

- `Authorization: Bearer {jwt_token}`
- `Content-Type: multipart/form-data`

Body (Form Data):

- `taskId` (number)
- `file` (file: PDF/DOC, max 5MB)

Response Success (201):

```
{
  "message": "Submission berhasil dikirim",
  "submission": {
    "id": 1,
    "taskId": 1,
    "userId": 1,
    "filePath": "/uploads/submission_file.pdf",
    "status": "submitted",
    "submittedAt": "2025-01-15T10:30:00Z"
  }
}
```

GET /submissions

Deskripsi: Mendapatkan semua submission user yang login

Headers: Authorization: Bearer {jwt_token}

Response Success (200):

```
{
  "data": [
    {
      "id": 1,
      "taskId": 1,
      "filePath": "/uploads/submission_file.pdf",
      "status": "submitted",
      "grade": null,
      "feedback": null,
      "submittedAt": "2025-01-15T10:30:00Z",
      "task": {
        "id": 1,
        "title": "Analisis Data Survei",
        "deadline": "2025-01-30T00:00:00Z"
      }
    }
  ]
}
```

PATCH /submissions/:id/resubmit

Deskripsi: Mengunggah ulang submission untuk revisi

Headers:

- Authorization: Bearer {jwt_token}
- Content-Type: multipart/form-data

Body (Form Data):

- `file` (file: PDF/DOC, max 5MB)

Response Success (200):

```
{
  "message": "Submission berhasil diunggah ulang",
  "submission": {
    "id": 1,
    "taskId": 1,
    "userId": 1,
    "filePath": "/uploads/submission_file_revised.pdf",
    "status": "submitted",
    "grade": null,
    "feedback": null,
    "submittedAt": "2025-01-16T14:20:00Z"
  }
}
```

PATCH `/submissions/:id/grade`

Deskripsi: Memberikan nilai dan feedback pada submission (Admin/Staff only)

Headers: `Authorization: Bearer {jwt_token}`

Request Body:

```
{
  "grade": 85.5,
  "feedback": "Analisis bagus, namun perlu perbaikan pada bagian kesimpulan.",
  "status": "reviewed"
}
```

Response Success (200):

```
{
  "message": "Submission berhasil dinilai",
  "submission": {
    "id": 1,
    "taskId": 1,
    "userId": 1,
    "filePath": "/uploads/submission_file.pdf",
    "status": "reviewed",
    "grade": 85.5,
    "feedback": "Analisis bagus, namun perlu perbaikan pada bagian kesimpulan.",
    "gradedAt": "2025-01-17T09:15:00Z"
  }
}
```

Bagian 4: Modul Laporan Akhir

4.1 Final Project Management

POST /final-projects

Deskripsi: Upload laporan akhir (Intern only)

Headers:

- `Authorization: Bearer {jwt_token}`
- `Content-Type: multipart/form-data`

Body (Form Data):

- `title` (string)
- `description` (string, optional)
- `file` (file: PDF, max 10MB)

Response Success (201):

```
{
  "message": "Laporan akhir berhasil diunggah",
  "finalProject": {
    "id": 1,
    "title": "Analisis Sistem Informasi BPS",
    "description": "Laporan analisis mendalam tentang sistem informasi di BPS",
    "filePath": "/uploads/final-projects/final-project-abc123.pdf",
    "status": "submitted",
    "userId": 1,
    "submittedAt": "2025-01-15T10:30:00Z"
  }
}
```

GET /final-projects

Deskripsi: Mendapatkan laporan akhir user yang login

Headers: `Authorization: Bearer {jwt_token}`

Response Success (200):

```
{
  "data": [
    {
      "id": 1,
      "title": "Analisis Sistem Informasi BPS",
      "description": "Laporan analisis mendalam tentang sistem informasi di BPS",
      "filePath": "/uploads/final-projects/final-project-abc123.pdf",
      "status": "submitted",
    }
  ]
}
```

```
    "grade": null,  
    "feedback": null,  
    "submittedAt": "2025-01-15T10:30:00Z"  
  }  
]  
}
```

GET /final-projects/all

Deskripsi: Mendapatkan semua laporan akhir (Admin only)

Headers: `Authorization: Bearer {jwt_token}`

Query Parameters:

- `page` (optional): Halaman (default: 1)
- `limit` (optional): Items per halaman (default: 20)

Response Success (200):

```
{  
  "data": [  
    {  
      "id": 1,  
      "title": "Analisis Sistem Informasi BPS",  
      "filePath": "/uploads/final-projects/final-project-abc123.pdf",  
      "status": "submitted",  
      "grade": null,  
      "feedback": null,  
      "submittedAt": "2025-01-15T10:30:00Z",  
      "user": {  
        "id": 1,  
        "name": "John Doe",  
        "email": "john@example.com"  
      },  
      "reviewedBy": null  
    }  
  ],  
  "total": 25,  
  "page": 1,  
  "lastPage": 2  
}
```

GET /final-projects/:id

Deskripsi: Mendapatkan detail laporan akhir berdasarkan ID

Headers: `Authorization: Bearer {jwt_token}`

Response Success (200):

```
{
  "id": 1,
  "title": "Analisis Sistem Informasi BPS",
  "description": "Laporan analisis mendalam tentang sistem informasi di BPS",
  "filePath": "/uploads/final-projects/final-project-abc123.pdf",
  "status": "submitted",
  "grade": null,
  "feedback": null,
  "submittedAt": "2025-01-15T10:30:00Z",
  "user": {
    "id": 1,
    "name": "John Doe",
    "email": "john@example.com"
  },
  "reviewedBy": null
}
```

PATCH `/final-projects/:id`

Deskripsi: Update laporan akhir (hanya jika status draft atau revision)

Headers:

- `Authorization: Bearer {jwt_token}`
- `Content-Type: multipart/form-data`

Body (Form Data):

- `title` (string, optional)
- `description` (string, optional)
- `file` (file: PDF, max 10MB, optional)

Response Success (200):

```
{
  "message": "Laporan akhir berhasil diperbarui",
  "finalProject": {
    "id": 1,
    "title": "Analisis Sistem Informasi BPS (Revised)",
    "status": "submitted",
    "submittedAt": "2025-01-16T14:20:00Z"
  }
}
```

PATCH `/final-projects/:id/review`

Deskripsi: Review laporan akhir (Admin only)

Headers: `Authorization: Bearer {jwt_token}`

Request Body:

```
{
  "status": "accepted",
  "grade": 88.5,
  "feedback": "Laporan sangat baik, analisis mendalam dan metodologi tepat."
}
```

Response Success (200):

```
{
  "message": "Review laporan akhir berhasil",
  "finalProject": {
    "id": 1,
    "status": "accepted",
    "grade": 88.5,
    "feedback": "Laporan sangat baik, analisis mendalam dan metodologi tepat.",
    "reviewedAt": "2025-01-17T09:15:00Z",
    "reviewedBy": 2
  }
}
```

DELETE `/final-projects/:id`

Deskripsi: Menghapus laporan akhir

Headers: `Authorization: Bearer {jwt_token}`

Response Success (200):

```
{
  "message": "Laporan akhir berhasil dihapus"
}
```

Bagian 5: Modul Sertifikat

5.1 Certificate Management

GET `/certificates/check-template`

Deskripsi: Mengecek ketersediaan template sertifikat (Admin only)

Headers: `Authorization: Bearer {jwt_token}`

Response Success (200):

```
{
  "success": true,

```

```
"templateExists": true,
"templatePath": "./uploads/certificate-templates/certificate-template.pdf",
"hasFormFields": true,
"fieldCount": 4,
"fieldNames": [
  { "name": "internName", "type": "PDFTextField" },
  { "name": "predicate", "type": "PDFTextField" },
  { "name": "certificateNumber", "type": "PDFTextField" },
  { "name": "grade", "type": "PDFTextField" }
],
"pageInfo": {
  "pageCount": 1,
  "firstPageSize": { "width": 842, "height": 596 }
},
"recommendation": "Template memiliki form fields, system akan mengisi fields otomatis"
}
```

Response Error (404):

```
{
  "success": false,
  "message": "Template PDF tidak ditemukan di: ./uploads/certificate-templates/certificate-template.pdf",
  "templateExists": false
}
```

POST /certificates/generate

Deskripsi: Generate sertifikat untuk intern (Admin only)

Headers: `Authorization: Bearer {jwt_token}`

Request Body:

```
{
  "userId": 1
}
```

Response Success (201):

```
{
  "id": 1,
  "certificateNumber": "CERT-2025-0115-1234",
  "internName": "John Doe",
  "predicate": "Sangat Baik",
  "status": "generated",
  "templatePath": "./uploads/certificates/generated/certificate-CERT-2025-0115-1234.pdf",
  "signedFilePath": null,
  "generatedAt": "2025-01-15T10:30:00Z",
  "signedAt": null,
  "issuedAt": null,
}
```

```
"userId": 1,
"generatedById": 2,
"user": {
  "id": 1,
  "name": "John Doe",
  "email": "john@example.com"
},
"generatedBy": {
  "id": 2,
  "name": "Admin User"
}
}
```

Response Error (400):

```
{
  "statusCode": 400,
  "message": "User sudah memiliki sertifikat"
}
```

GET /certificates/:id/download-for-signing

Deskripsi: Download sertifikat untuk ditandatangani (Admin only)

Headers: `Authorization: Bearer {jwt_token}`

Response Success (200):

Content-Type: application/pdf

Content-Disposition: attachment; filename="certificate-CERT-2025-0115-1234-for-signing.pdf"

[PDF binary data]

Response Error (403):

```
{
  "statusCode": 403,
  "message": "Certificate belum di-generate atau sudah diproses"
}
```

PATCH /certificates/:id/upload

Deskripsi: Upload sertifikat yang sudah ditandatangani (Admin only)

Headers:

- `Authorization: Bearer {jwt_token}`
- `Content-Type: multipart/form-data`

Body (Form Data):

- `file` (file: PDF, max 5MB)

Response Success (200):

```
{
  "id": 1,
  "certificateNumber": "CERT-2025-0115-1234",
  "internName": "John Doe",
  "predicate": "Sangat Baik",
  "status": "signed",
  "templatePath": "./uploads/certificates/generated/certificate-CERT-2025-0115-1234.pdf",
  "signedFilePath": "/uploads/certificates/signed/certificate-signed-abc123.pdf",
  "signedAt": "2025-01-15T15:30:00Z",
  "userId": 1,
  "generatedById": 2
}
```

PATCH `/certificates/:id/issue`

Deskripsi: Issue sertifikat agar bisa didownload intern (Admin only)

Headers: `Authorization: Bearer {jwt_token}`

Response Success (200):

```
{
  "id": 1,
  "certificateNumber": "CERT-2025-0115-1234",
  "internName": "John Doe",
  "predicate": "Sangat Baik",
  "status": "issued",
  "issuedAt": "2025-01-15T16:00:00Z",
  "userId": 1,
  "generatedById": 2
}
```

Response Error (403):

```
{
  "statusCode": 403,
  "message": "Hanya sertifikat yang sudah signed yang dapat diterbitkan"
}
```

GET `/certificates`

Deskripsi: Mendapatkan sertifikat user yang login (Intern only)

Headers: `Authorization: Bearer {jwt_token}`

Response Success (200):

```
{
  "id": 1,
  "certificateNumber": "CERT-2025-0115-1234",
  "internName": "John Doe",
  "predicate": "Sangat Baik",
  "status": "issued",
  "generatedAt": "2025-01-15T10:30:00Z",
  "issuedAt": "2025-01-15T16:00:00Z",
  "generatedBy": {
    "id": 2,
    "name": "Admin User"
  }
}
```

Response Error (404):

```
{
  "statusCode": 404,
  "message": "Sertifikat tidak ditemukan"
}
```

GET /certificates/:id/download

Deskripsi: Download sertifikat yang sudah issued (Intern only)

Headers: `Authorization: Bearer {jwt_token}`

Response Success (200):

Content-Type: application/pdf

Content-Disposition: attachment; filename="Sertifikat_CERT-2025-0115-1234.pdf"

[PDF binary data]

Response Error (403):

```
{
  "statusCode": 403,
  "message": "Sertifikat belum diterbitkan"
}
```

GET /certificates/all

Deskripsi: Mendapatkan semua sertifikat (Admin only)

Headers: `Authorization: Bearer {jwt_token}`

Query Parameters:

- `page` (optional): Halaman (default: 1)

- `limit` (optional): Items per halaman (default: 20)

Response Success (200):

```
{
  "data": [
    {
      "id": 1,
      "certificateNumber": "CERT-2025-0115-1234",
      "internName": "John Doe",
      "predicate": "Sangat Baik",
      "status": "issued",
      "generatedAt": "2025-01-15T10:30:00Z",
      "issuedAt": "2025-01-15T16:00:00Z",
      "user": {
        "id": 1,
        "name": "John Doe",
        "email": "john@example.com"
      },
      "generatedBy": {
        "id": 2,
        "name": "Admin User"
      }
    }
  ],
  "total": 15,
  "page": 1,
  "lastPage": 1
}
```

GET `/certificates/:id`

Deskripsi: Mendapatkan detail sertifikat berdasarkan ID

Headers: `Authorization: Bearer {jwt_token}`

Response Success (200):

```
{
  "id": 1,
  "certificateNumber": "CERT-2025-0115-1234",
  "internName": "John Doe",
  "predicate": "Sangat Baik",
  "status": "issued",
  "templatePath": "./uploads/certificates/generated/certificate-CERT-2025-0115-1234.pdf",
  "signedFilePath": "/uploads/certificates/signed/certificate-signed-abc123.pdf",
  "generatedAt": "2025-01-15T10:30:00Z",
  "signedAt": "2025-01-15T15:30:00Z",
  "issuedAt": "2025-01-15T16:00:00Z",
  "userId": 1,
  "generatedById": 2,
}
```

```
"user": {
  "id": 1,
  "name": "John Doe",
  "email": "john@example.com"
},
"generatedBy": {
  "id": 2,
  "name": "Admin User"
}
}
```

PATCH /certificates/:id

Deskripsi: Update sertifikat (Admin only)

Headers: Authorization: Bearer {jwt_token}

Request Body:

```
{
  "internName": "John Doe Updated",
  "predicate": "Sangat Baik"
}
```

Response Success (200):

```
{
  "id": 1,
  "certificateNumber": "CERT-2025-0115-1234",
  "internName": "John Doe Updated",
  "predicate": "Sangat Baik",
  "status": "generated",
  "updatedAt": "2025-01-15T17:00:00Z",
  "userId": 1,
  "generatedById": 2
}
```

Response Error (403):

```
{
  "statusCode": 403,
  "message": "Sertifikat yang sudah diterbitkan tidak dapat diubah"
}
```

DELETE /certificates/:id

Deskripsi: Menghapus sertifikat (Admin only)

Headers: Authorization: Bearer {jwt_token}

Response Success (200):

```
{
  "id": 1,
  "certificateNumber": "CERT-2025-0115-1234",
  "internName": "John Doe",
  "predicate": "Sangat Baik",
  "status": "generated",
  "userId": 1,
  "generatedById": 2
}
```

Bagian 6: Catatan & Standar Umum

6.1 Roles & Permissions

Mahasiswa/Intern:

- Dapat mengakses endpoint untuk aktivitas pribadi (profil, presensi, logbook, tugas)
- Dapat upload dan edit laporan akhir
- Dapat download sertifikat yang sudah issued
- Dapat melihat sertifikat pribadi

Staff BPS:

- Dapat membuat tugas dan menilai submission
- Dapat melihat presensi dan logbook semua intern
- Dapat review laporan akhir
- Dapat generate, upload, dan issue sertifikat

Admin:

- Memiliki akses penuh ke semua endpoint
- Dapat mengelola user dan verifikasi pendaftaran
- Dapat generate dan issue sertifikat
- Dapat mengakses semua data dengan paginasi
- Dapat mengelola template sertifikat

6.2 File Upload

Format yang Didukung:

- **Berkas Pendaftaran:** PDF (max 2MB)
- **Submission Tugas:** PDF, DOC, DOCX (max 5MB)
- **Laporan Akhir:** PDF (max 10MB)
- **Sertifikat:** PDF (max 5MB)

Naming Convention:

- **Berkas Upload:** `{type}-{random-hash}.{ext}`
- **Final Project:** `final-project-{random-hash}.pdf`
- **Certificate Generated:** `certificate-{certificateNumber}.pdf`
- **Certificate Signed:** `certificate-signed-{random-hash}.pdf`

Storage Location:

- **Berkas Pendaftaran:** `/uploads/internship-applications/`
- **Submission Tugas:** `/uploads/submissions/`
- **Laporan Akhir:** `/uploads/final-projects/`
- **Template Sertifikat:** `/uploads/certificate-templates/`
- **Sertifikat Generated:** `/uploads/certificates/generated/`
- **Sertifikat Signed:** `/uploads/certificates/signed/`

6.3 Pagination

Semua endpoint dengan paginasi menggunakan struktur response standar:

```
{
  "data": [...],
  "total": 150,
  "page": 1,
  "lastPage": 8
}
```

Query Parameters:

- `page` : Nomor halaman (default: 1)
- `limit` : Jumlah item per halaman (default: 10-20 tergantung endpoint)

6.4 Status Enum Values

InternshipApplication Status:

- `pending` : Menunggu verifikasi
- `accepted` : Diterima
- `rejected` : Ditolak

Logbook Status:

- `draft` : Draft
- `submitted` : Sudah submit

Submission Status:

- `not_submitted` : Belum submit
- `submitted` : Sudah submit
- `reviewed` : Sudah dinilai

- **revision** : Perlu revisi

FinalProject Status:

- **draft** : Draft
- **submitted** : Sudah submit
- **reviewed** : Sedang direview
- **accepted** : Diterima
- **revision** : Perlu revisi

Certificate Status:

- **generated** : Sudah digenerate, belum ditandatangani
- **signed** : Sudah ditandatangani, belum issued
- **issued** : Sudah diterbitkan, bisa didownload intern

6.5 Standard Error Codes

400 Bad Request

```
{
  "statusCode": 400,
  "message": "Validation failed",
  "error": "Bad Request"
}
```

401 Unauthorized

```
{
  "statusCode": 401,
  "message": "Unauthorized"
}
```

403 Forbidden

```
{
  "statusCode": 403,
  "message": "Forbidden resource"
}
```

404 Not Found

```
{
  "statusCode": 404,
  "message": "Resource not found"
}
```

409 Conflict

```
{
  "statusCode": 409,
  "message": "Resource already exists"
}
```

500 Internal Server Error

```
{
  "statusCode": 500,
  "message": "Internal server error"
}
```

6.6 Authentication

Semua endpoint yang memerlukan autentikasi harus menyertakan header:

Authorization: Bearer {jwt_token}

Token JWT diperoleh melalui endpoint `/auth/login` dan memiliki masa berlaku tertentu.

6.7 Rate Limiting

- **File Upload:** Max 10 requests per menit per user
- **General API:** Max 100 requests per menit per user
- **Admin Endpoints:** Max 200 requests per menit per admin

6.8 CORS

API mendukung CORS untuk domain frontend yang dikonfigurasi. Default: `http://localhost:3001`

6.9 Certificate Workflow

Admin/Staff Workflow:

1. **Generate Certificate** → Status: `generated`
2. **Download for Signing** → Admin download PDF
3. **Upload Signed Certificate** → Status: `signed`
4. **Issue Certificate** → Status: `issued`

Intern Workflow:

1. **View Certificate Status** → Check apakah sudah issued
2. **Download Certificate** → Download PDF final (jika status = `issued`)

Business Rules:

- Hanya intern dengan final project **accepted** yang bisa dibuatkan sertifikat
 - Predicate auto-calculated dari grade final project
 - Satu intern hanya bisa punya satu sertifikat
 - Certificate number auto-generated dengan format **CERT- {YEAR} - {MMDD} - {RANDOM}**
-

API Documentation v2.0 - Last updated: Januari 2025
